MORE INFORMATION
info@iCandyEV.com

Engineered to meet the rigorous demands of modern law enforcement, the Enforcer by iCandy is a high-performance electric scooter that combines speed, power, and versatility in one compact form. With a powerful dual motor, police-specific features, and the durability to handle both urban streets and off-road trails, the Enforcer is designed to empower officers with enhanced mobility for patrol, rapid response, and crowd control.

Equipped with custom police lighting, a siren, PA system, and department-specific branding options, the Enforcer serves as a professional, cost-effective solution for departments seeking efficiency and agility. Whether maneuvering through crowded events or patrolling expansive areas, this scooter offers a reliable, eco-friendly alternative that supports officers in maintaining safety and presence wherever duty calls.
